**Phone: (+27) 0825676013**

**Email: marOpp02@outlook.com**

## OBJECTIVE

Junior full-stack web and mobile developer with hands-on experience building scalable applications using Angular, React, TypeScript, TailwindCSS, ASP.NET, C#, SQL Server, Python, and Django. Skilled in designing responsive front-end interfaces and integrating RESTful APIs. Familiar with Agile methodologies, version control (Git), and modern DevOps tools like Vercel. Committed to building clean, accessible, and maintainable solutions for real-world use cases.

## EXPERIENCE

### SuperApp, Remote — Web Developer Intern

FEBRUARY 2025 - MARCH 2025

- Contributed to full-stack development of a sports club management PWA, building key features with Angular and ASP.NET Web API as part of a 3-person Agile team.
- Developed scheduling, attendance tracking, and invoicing tools used by coaches and parents, improving workflow efficiency and user experience.
- Created SQL Server database queries and ensured smooth integration with front-end features.
- Participated in Agile ceremonies, daily standups, and backlog grooming

## EDUCATION

### University of South Africa — Diploma in IT

MARCH 2022 - JUNE 2025

- Graduated Cum Laude (GPA 3.8)

### Langenhoven Gimnasium — National Senior Certificate

JANUARY 2016 - DECEMBER 2020

- Achieved distinctions in English FAL, Information Technology, and Computer Applications Technology

## SKILLS

- » JavaScript
- » TypeScript
- » React.js
- » Angular
- » TailwindCSS
- » Django
- » Python
- » C#
- » ASP.NET
- » SQL
- » Git & GitHub
- » Self-Motivation
- » Technical Writing
- » Problem Solving
- » Communication

## CERTIFICATIONS

- » Professional Certificate in Computer Science for Web Programming by HarvardX - [edX](#)
- » Angular - The Complete Guide (2025 Edition) - [Udemy](#)
- » C# .NET with MS SQL Complete Beginner to Master 2025 - [Udemy](#)

[Full List of Certifications](#)

## PROJECTS

### KnowYourConstitution1996 – [Live Site](#) | [GitHub Repository](#)

A responsive civic tech web app for accessing South Africa's 1996 Constitution.

- Built using **React**, **TypeScript**, and **TailwindCSS**, with a focus on clean, accessible UI/UX
- Integrated the **ZAConstitution1996 API** to dynamically display constitutional content
- Wrote open-source consumer documentation for public use of the API
- Deployed via **Vercel** for performance and scalability
- Manage domain hosting and DNS through **Xneelo**

### ZAConstitution1996 API – [Documentation](#) | [GitHub Repository](#)

A public-facing **ASP.NET Web API** for querying South Africa's 1996 Constitution.

- Built with **ASP.NET Web API**, **C#**, **Entity Framework Core** and **SQL Server**
- Designed and implemented **RESTful** endpoints to support legal and civic applications
- Fully open-source with autogenerated **Swagger** documentation for developers
- Optimised for integration into educational and legal platforms

### Personal Portfolio – [Live Site](#) | [GitHub Repository](#)

A personal developer portfolio to showcase skills and projects.

- Built with **Angular**, **SASS**, and **TypeScript** and deployed via **Vercel**
- Highlights projects, skills and qualifications
- Responsive design and mobile-first layout
